Introduction

This report provides an analysis of the total medals distribution among countries.

Data Summary

Statistic	Rank	Gold	Silver	Bronze	Total	Gold_Percentage	Silver_Percentage	Bronze_Percentage
count	91.0	91.0	91.0	91.0	91.0	91.0	91.0	91.0
mean	45.31	3.6	3.59	4.22	11.42	26.45	29.61	43.94
std	25.65	6.99	6.77	6.56	19.7	23.54	26.87	30.36
min	1.0	0.0	0.0	0.0	1.0	0.0	0.0	0.0
25%	23.5	0.0	0.0	1.0	2.0	0.0	0.0	25.0
50%	44.0	1.0	1.0	2.0	5.0	25.0	28.57	40.0
75%	68.0	3.0	3.0	5.0	9.0	43.41	42.86	61.25
max	84.0	40.0	44.0	42.0	126.0	100.0	100.0	100.0

Visualization: Total Medals Distribution

The distribution of total medals among countries shows that:

- The medals earned in these countries are not based solely on the strength of the national field
- Those who have achieved great achievements can now receive medals by participating in the National Championships,

AI-Generated Analysis Report

Top Performers

The top-performing countries by total medals are: Brazil (2); Israel (1); Russia (1); Turkey (1), Malaysia (1). The rest are in the top seven.

The medal standings this year go a long way in

Medal Comparison

The comparison between different types of medals shows that:

1. The medal type is generally smaller (like gold)
2. The medal type is larger (like silver)
3. The medal type is narrower (like diamond)
